[] Comment:

This report is in contradiction to a detailed previous report in which it was indicated under para 12 (3) that the conversion of the plant to peacetime production was completed in March 1946. Since then, only pig iron, ingot steel, rolled products, locomotives, railroad car wheels, tools, drilling implements for the crude oil industry, electric motors and bridges are being manufactured.

This document is hereby regraded to **CONFIDENTIAL** in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
